GOOGLE FONTS

HTTPS://FONTS.GOOGLE.COM/

WHY USE??

- Keeps text editable & searchable
(SEO & Web Accessibility)

- Cross-platform display support

- Enhance your design

- Free & unlimited usage

WHAT'S THE PROBLEM?

- Not ideal for brand identity

- Depending on your definition, options may seem limited

- If not downloaded locally, fonts are not accessible offline or if Google server crashes (Font stack)

- Compatibility issues with older browsers

CSS RESETS

PATTY KOVASH

WHY USE??

- Different browsers can have different styling defaults

- Gives you a clean slate

- Avoid inconsistencies in browser styling

- Many different reset options available
